Android Studio Setup

Welcome to Android Studio Setup

Setup will guide you through the installation of Android Studio.

It is recommended that you close all other applications before starting Setup. This will make it possible to update relevant system files without having to reboot your computer.

Click Next to continue.

< Back Next > Cancel

Android Studio Setup

Choose Components

Choose which features of Android Studio you want to install.

Check the components you want to install and uncheck the components you don't want to install. Click Next to continue.

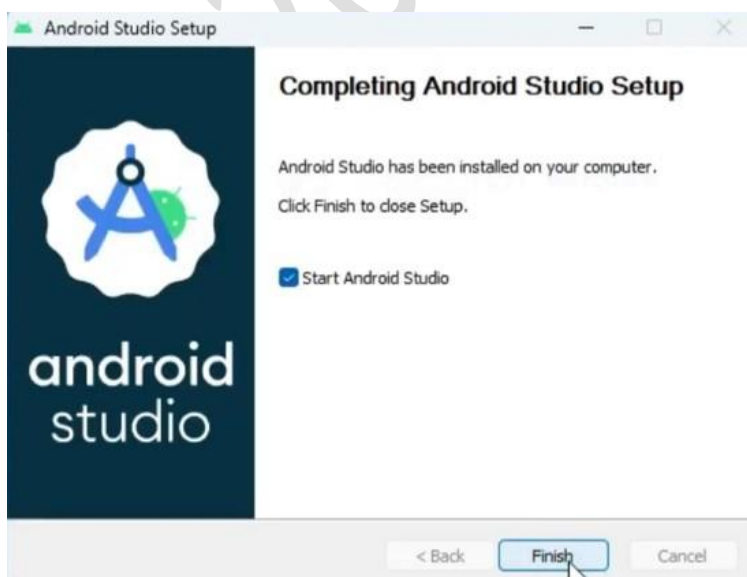

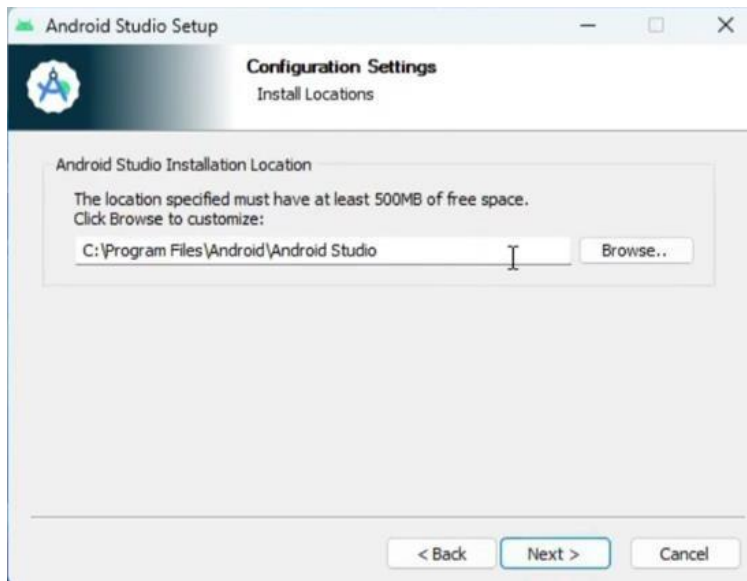

Select components to install:

- ☒ Android Studio
- ☒ Android Virtual Device

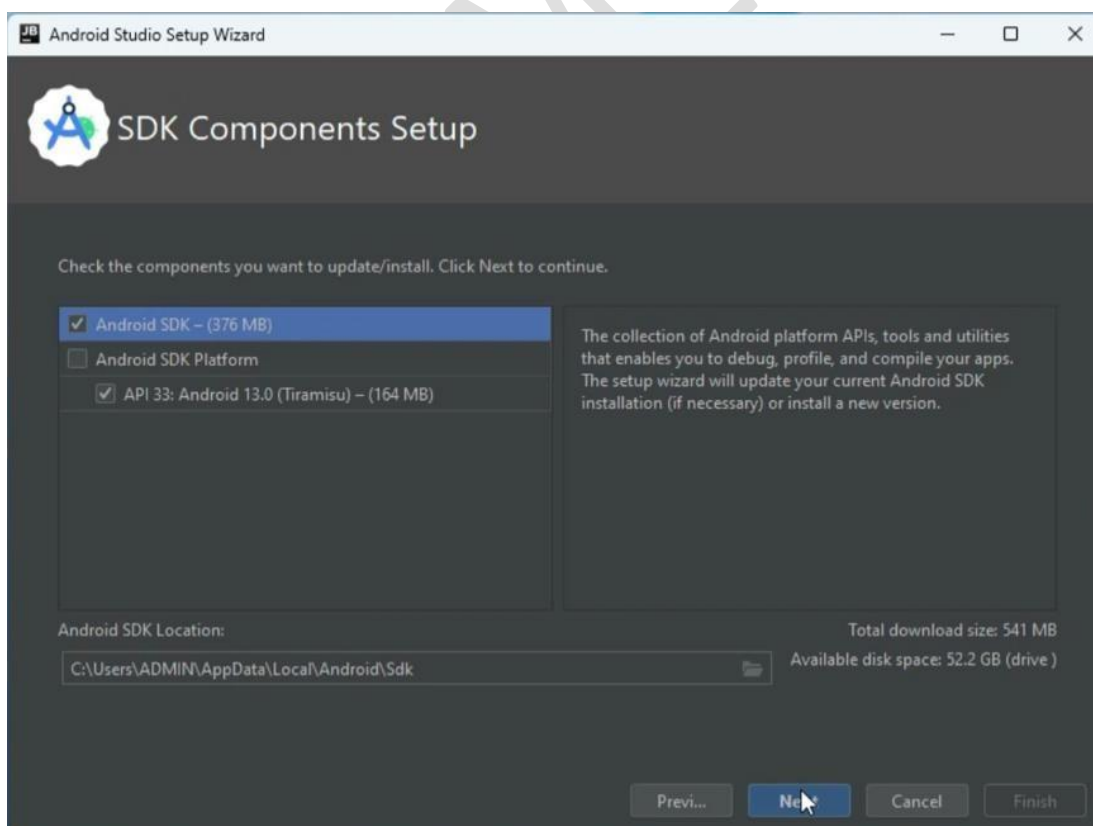

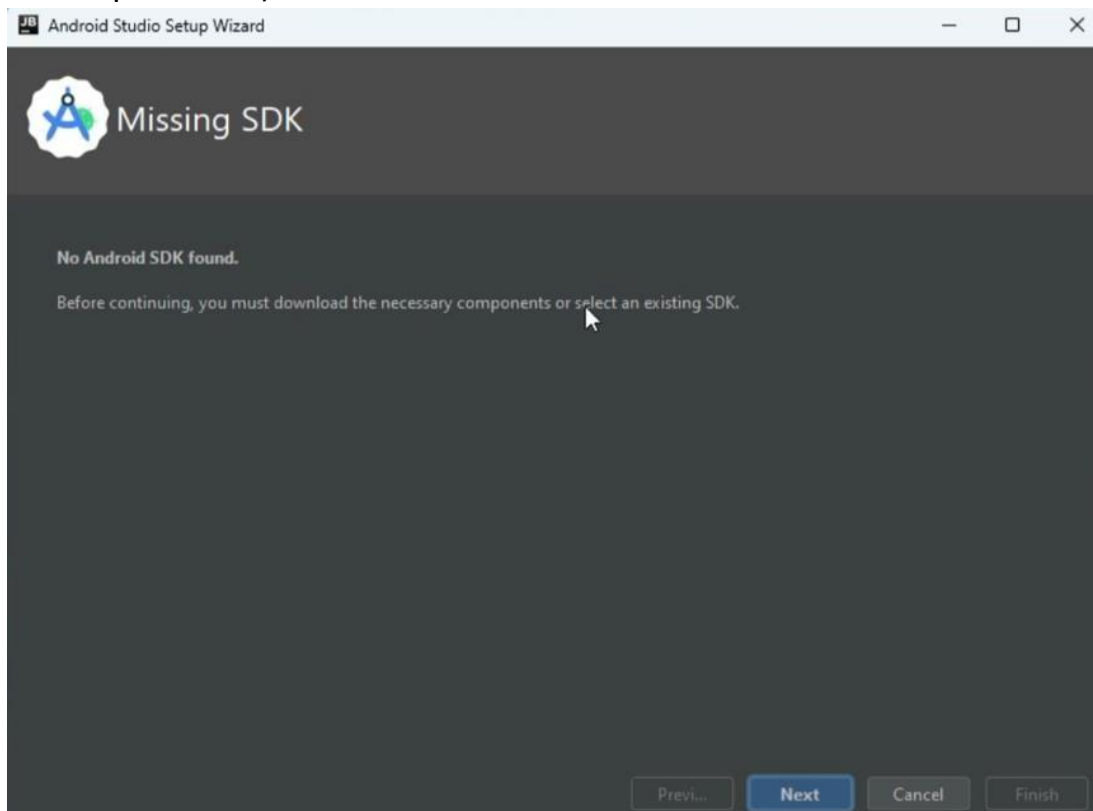

Space required: 3.3GB

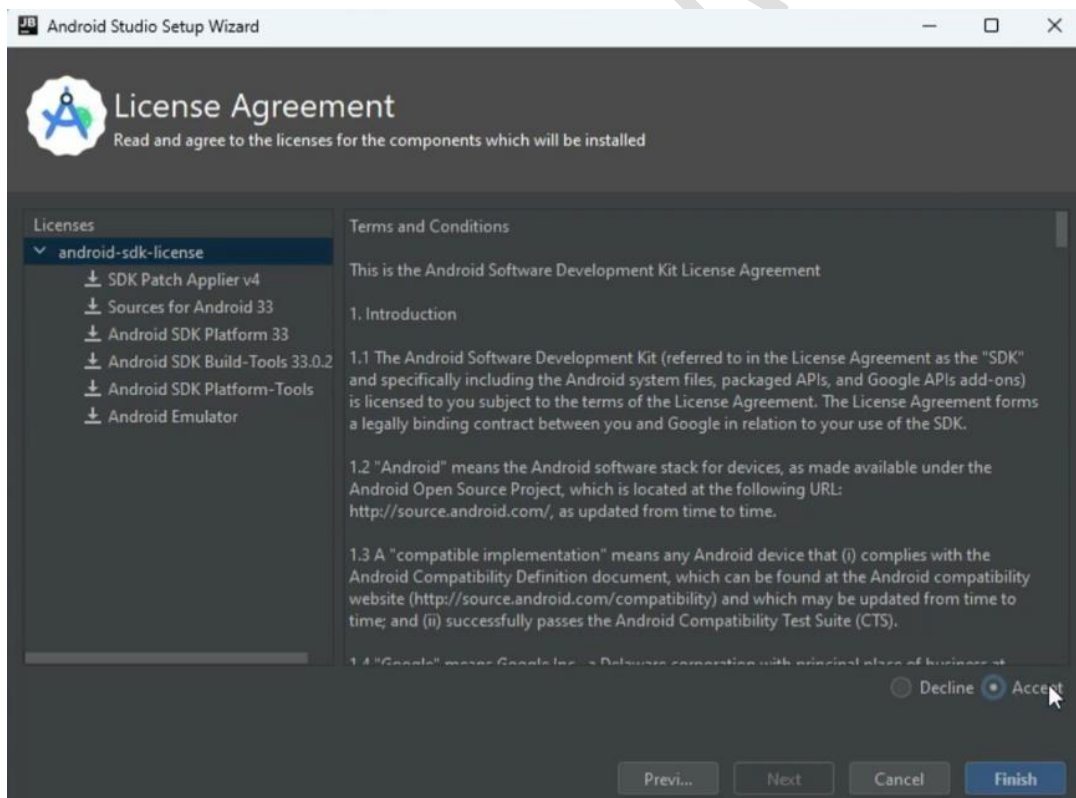

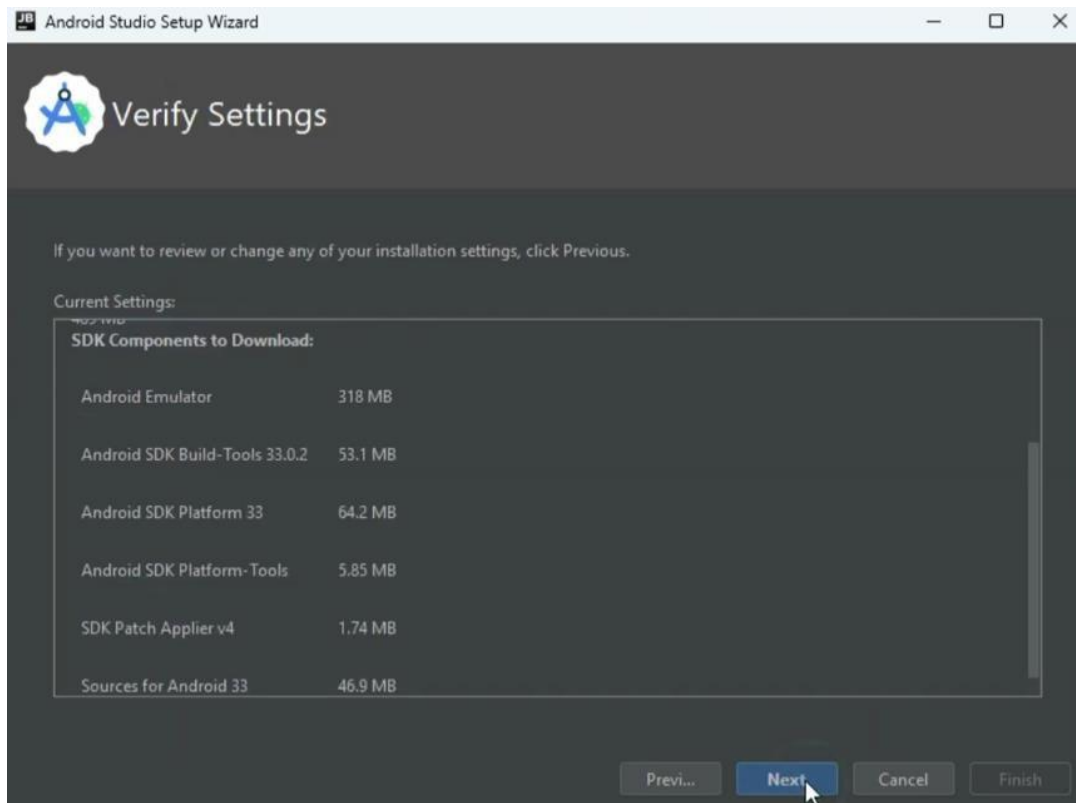

Description
Position your mouse over a component to see its description.

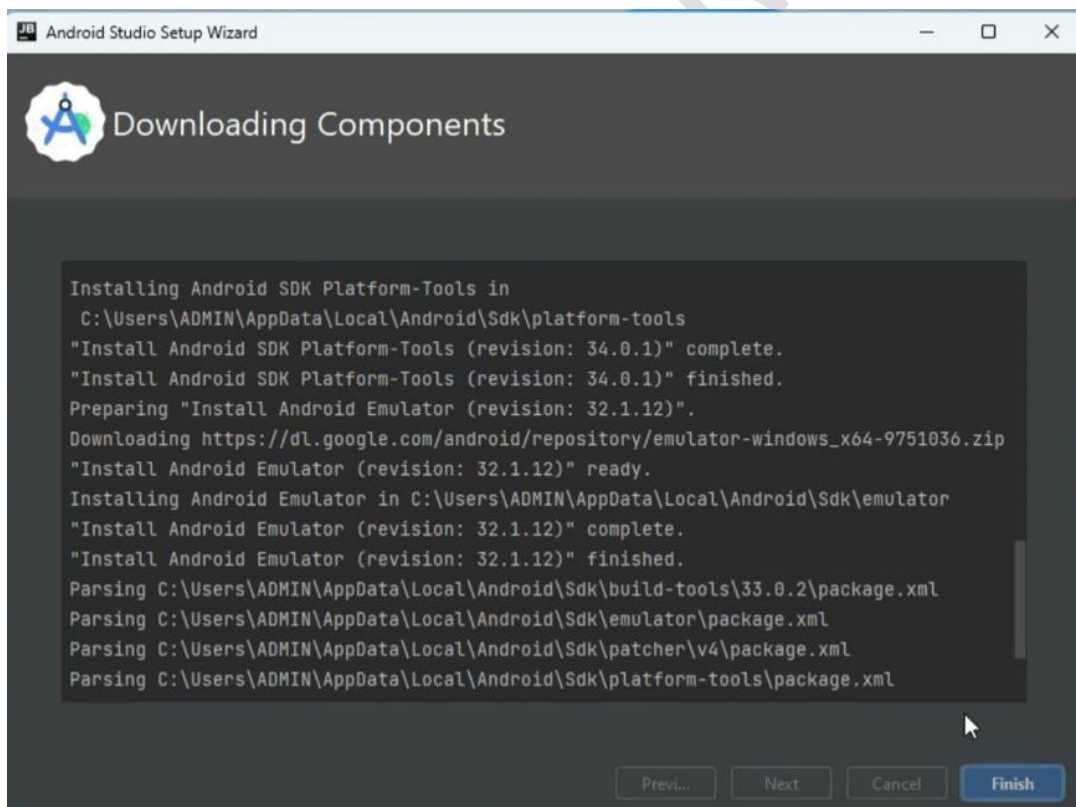

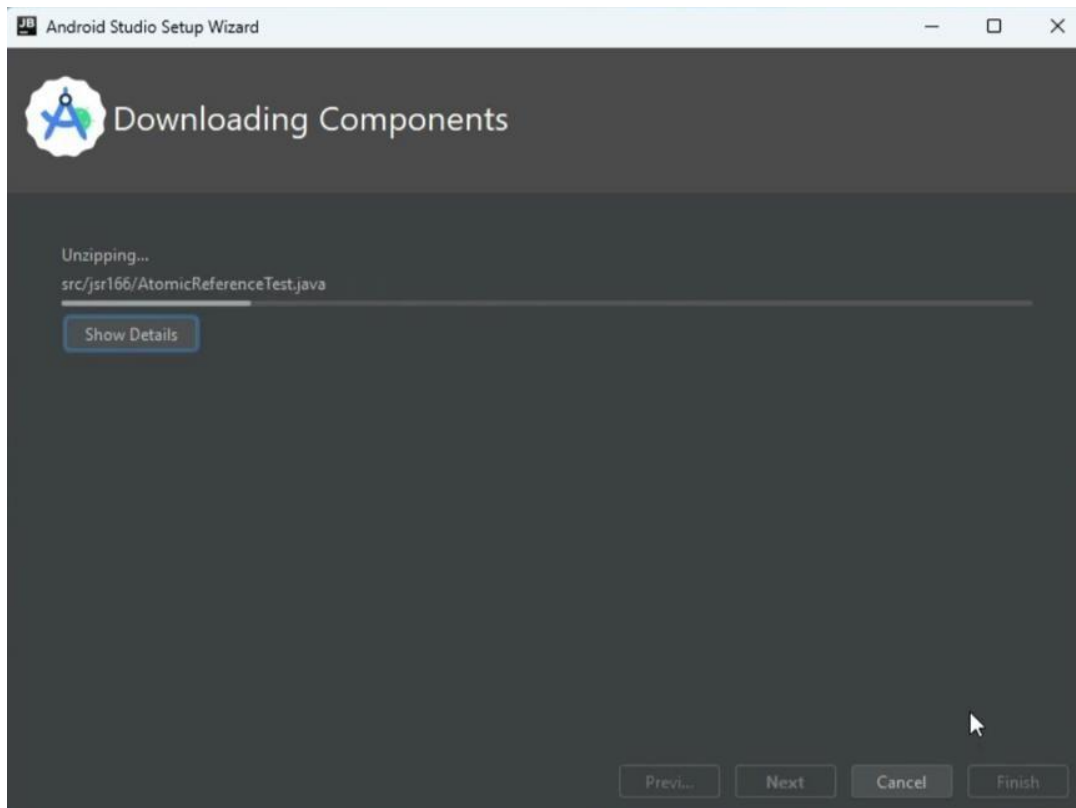

< Back Next > Cancel

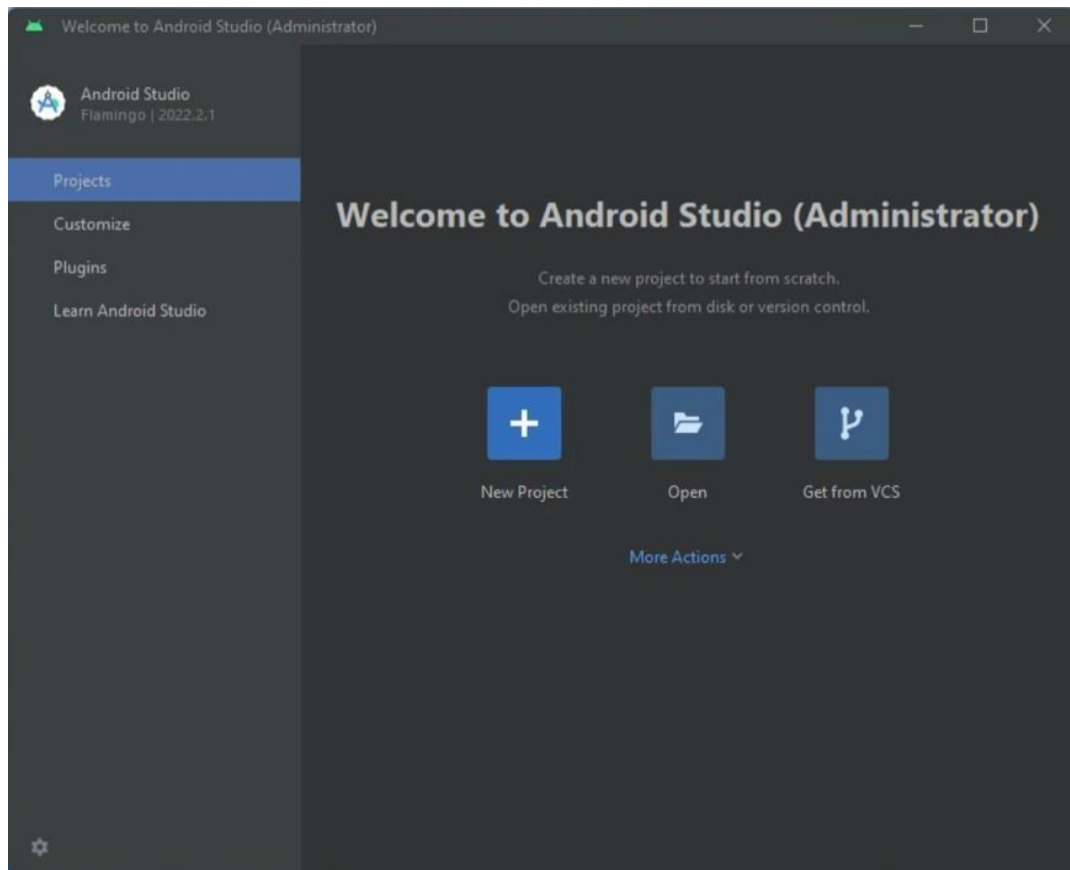

If you are downloading app. first time then it needs some SDK(Software Development Kit) .

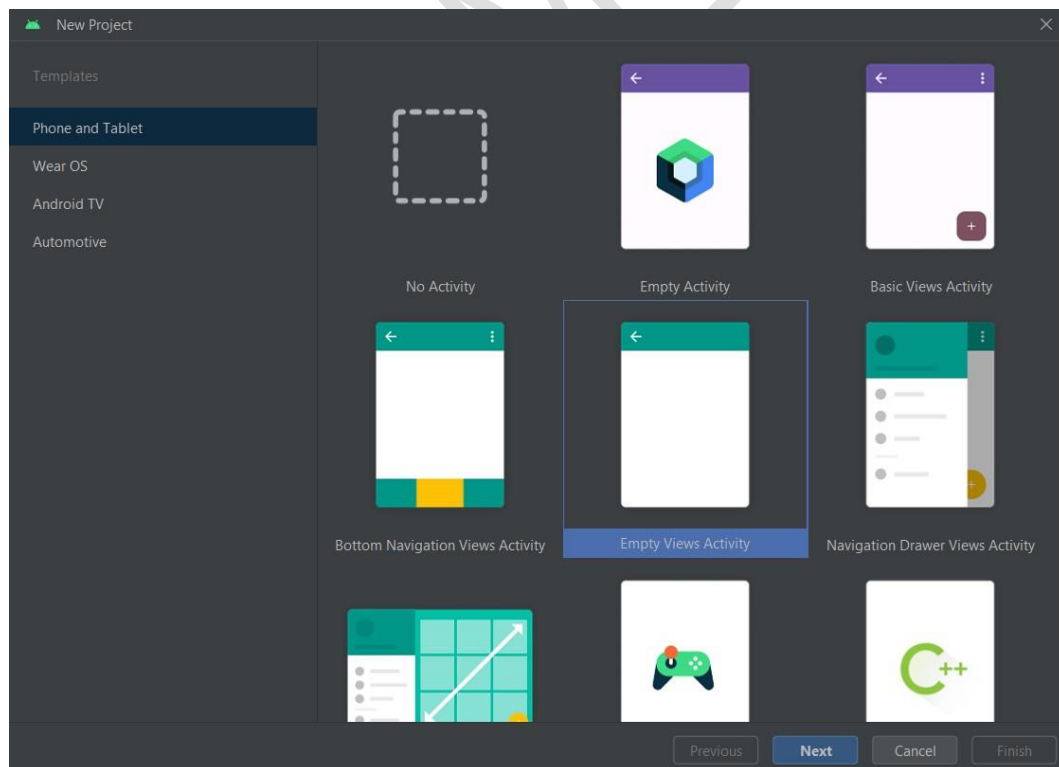

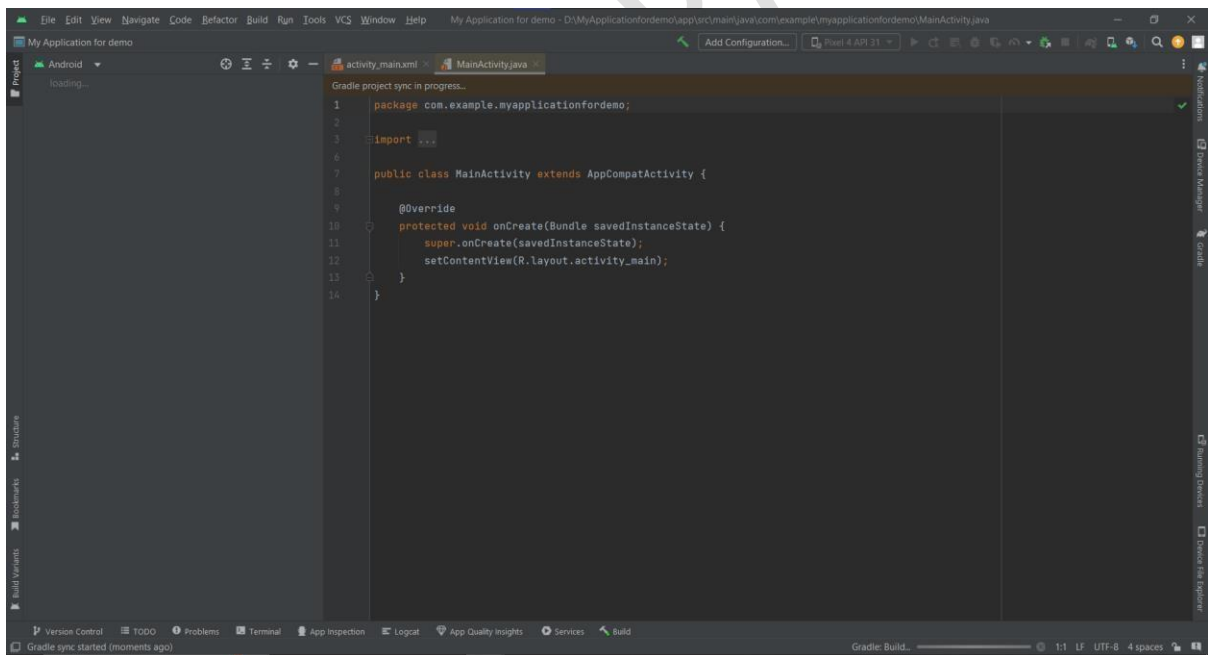

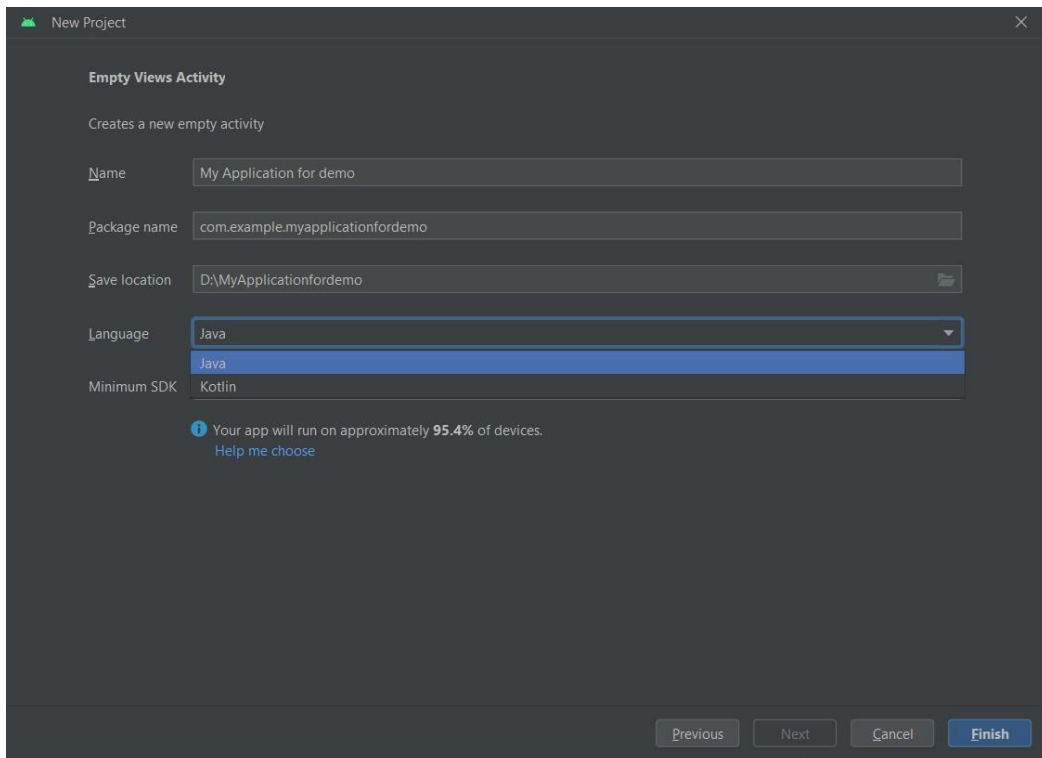

Now we can create android project in it.

Click on “New Project”,

Now we can do code in this window for java and xml file.
